Doorway Width \times 2 + 150mm(6")	Doorway Width + 80~100mm(3-4")	The height of the door frame + 25~50mm(1-2")	30~45cm (1- ³ / ₁₆ "~1- ³ / ₄ ")	Max. 150kg

Important Note!

Situations where a back panel must be installed:

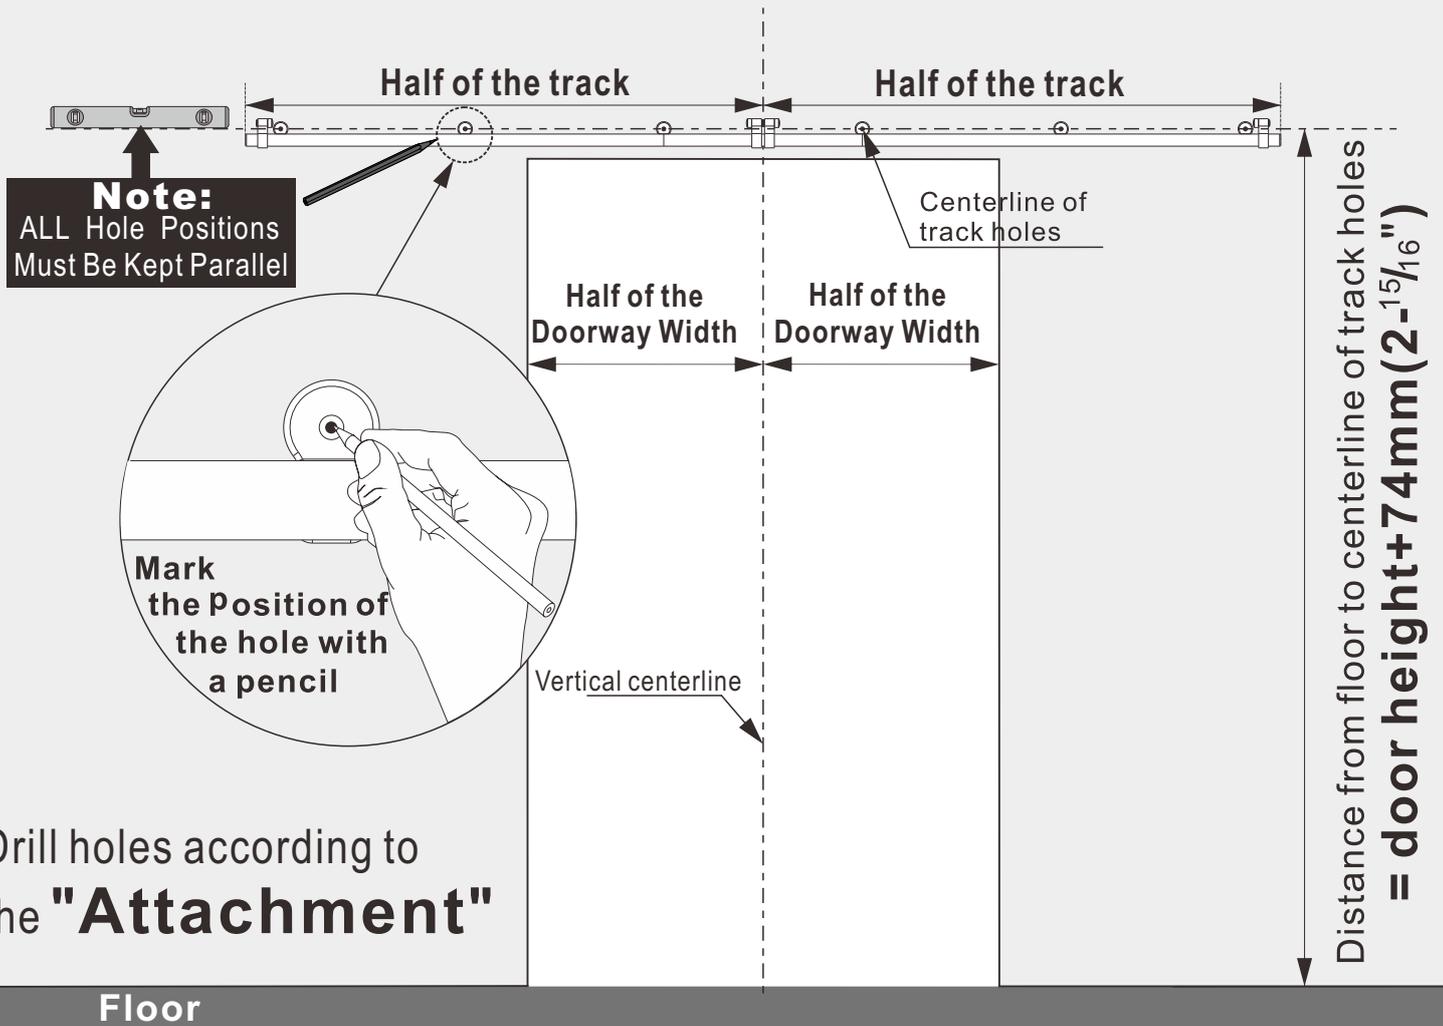

- 1 Doorway with decoration (e.g., with door frame or baseboard)
- 3 Wall made of drywall with a wooden load-bearing structure inside, not a concrete wall. Back Panel Dimensions (Solid Wood)=Track Size or Longer

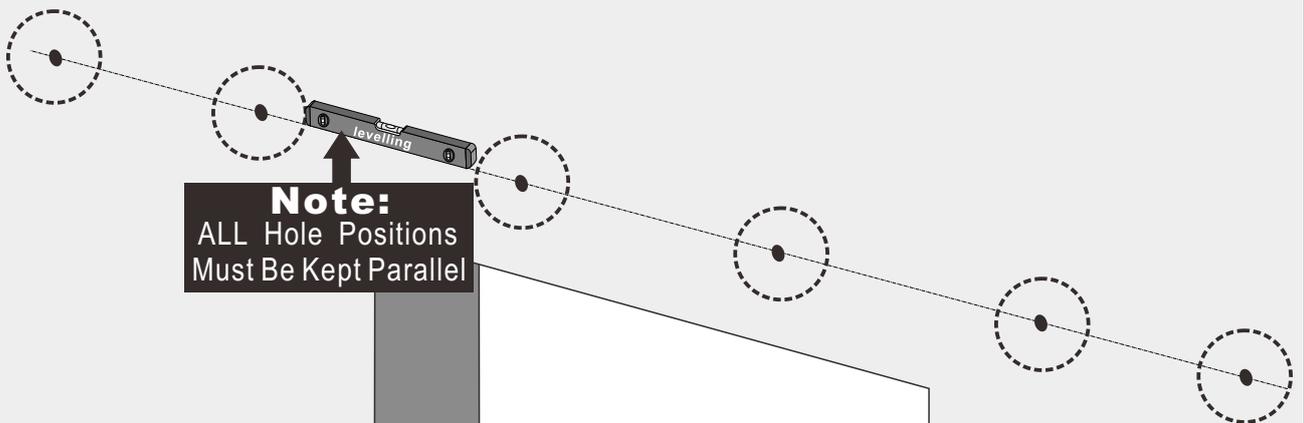

Note: Please prepare the back panel and the components for installing the back panel yourself.

Step 2: Install the Track

1 Place the track in the position shown in the diagram and mark the drilling location

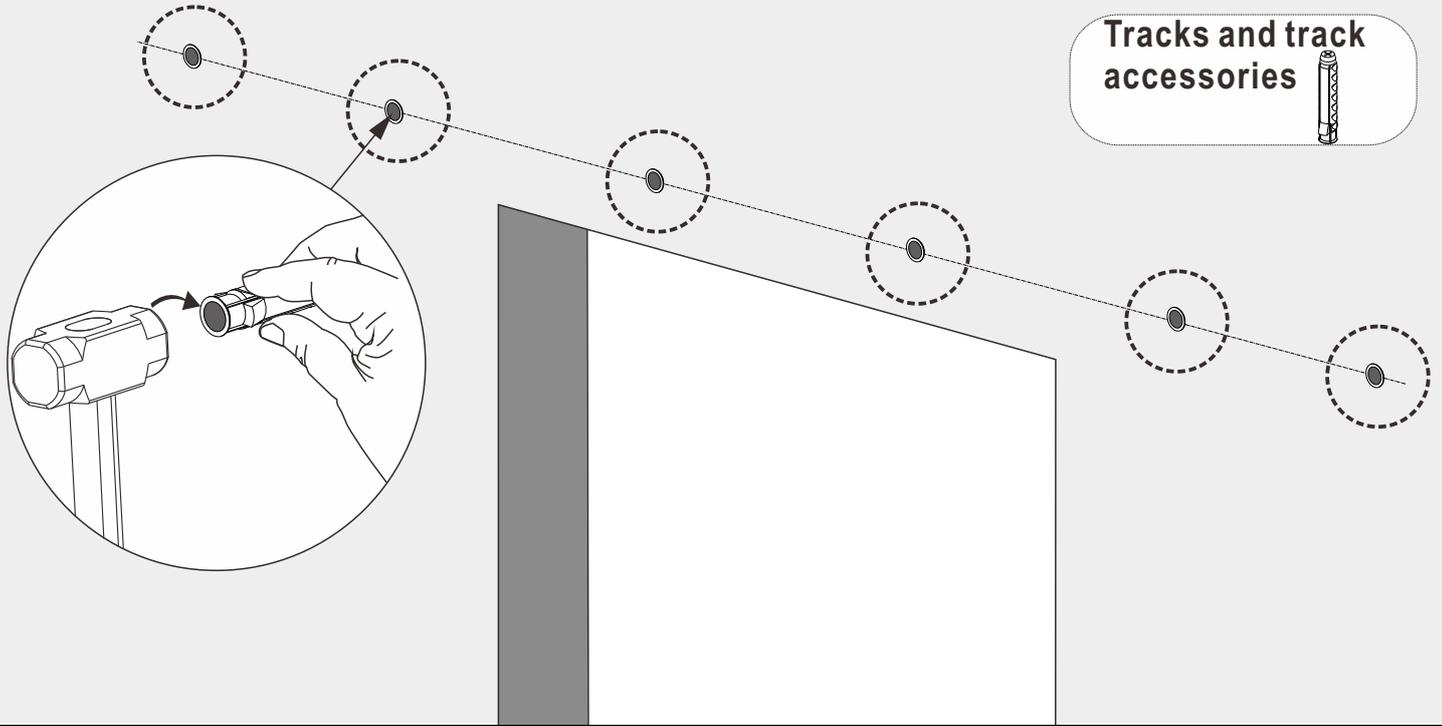

2 When inspecting the wall, **If it is a wooden wall**, a 3mm (¹/₈") drill bit is needed to drill a hole with a depth of 60mm (2-³/₈") ; **If it is a brick wall**, a 12mm (¹/₂") drill bit is required to drill a hole with a depth of 60mm (2-³/₈").

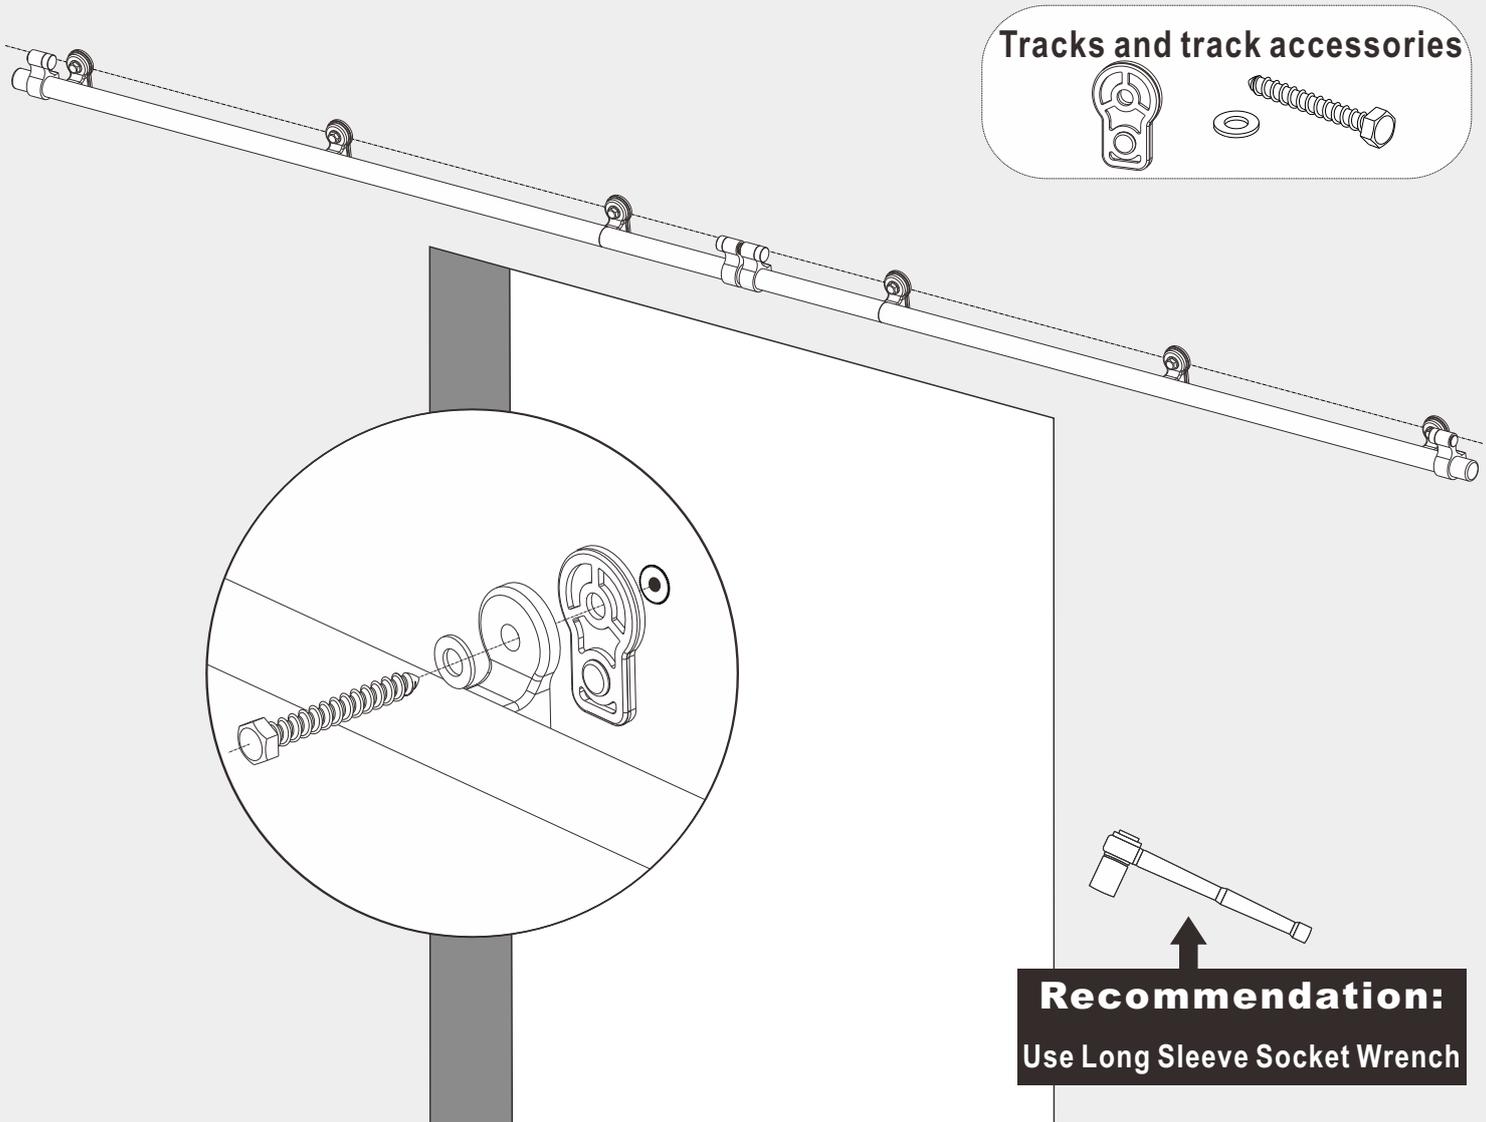

Wooden wall	Brick wall
<p>Drill holes Diameter = 3mm (¹/₈") Depth = 60mm (2-³/₈")</p>	<p>Drill holes Diameter = 12mm (¹/₂") Depth = 60mm (2-³/₈")</p>

3 Use a hammer to firmly tap the **Expansion plug** into the holes.

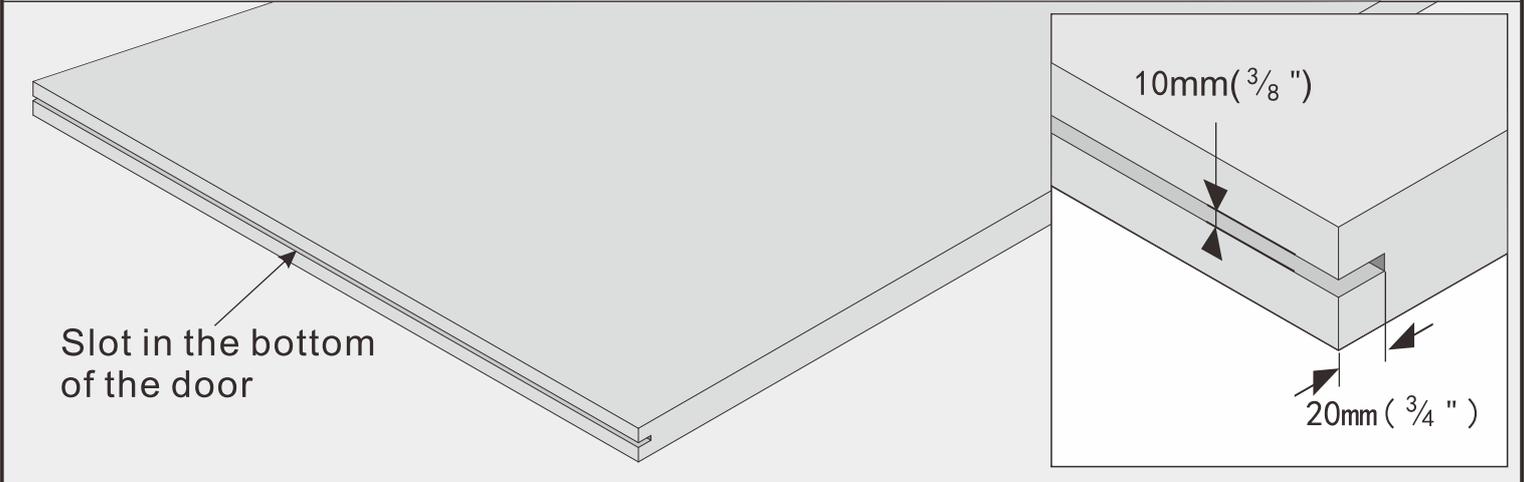

Note: If the wall is made of wood or if a wooden back panel has already been installed, please skip this step.

4 Install the track as shown in the diagram.

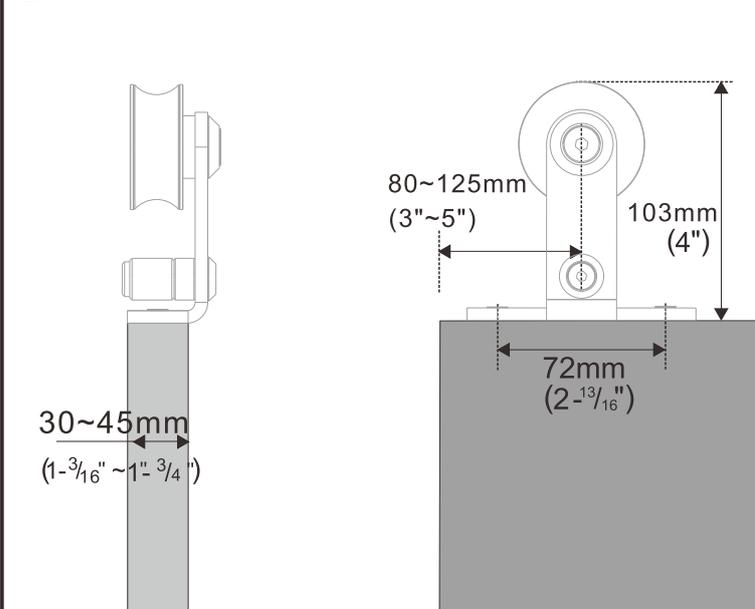

Step 3 Slot the bottom of the door panel and install the hook plate and roller

① Slotting according to size

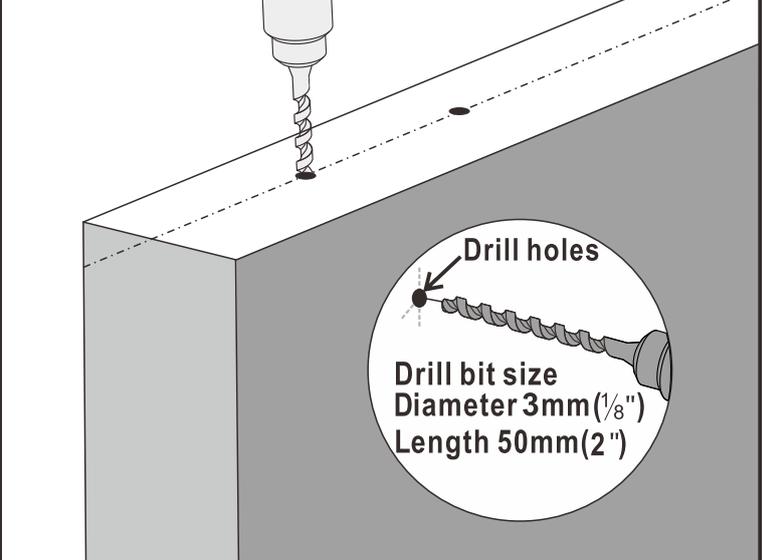

If you have other kinds of roller floor guide, you can skip the slots and ignore this step

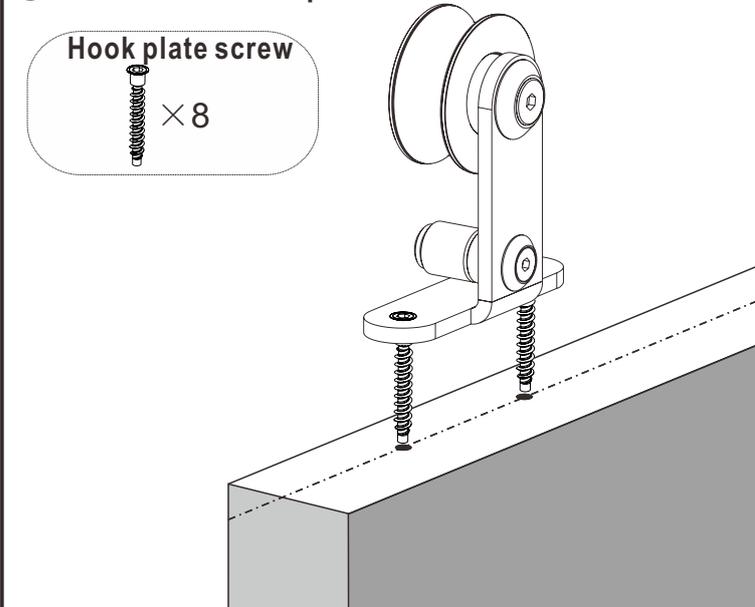

① Marking the location of drill holes

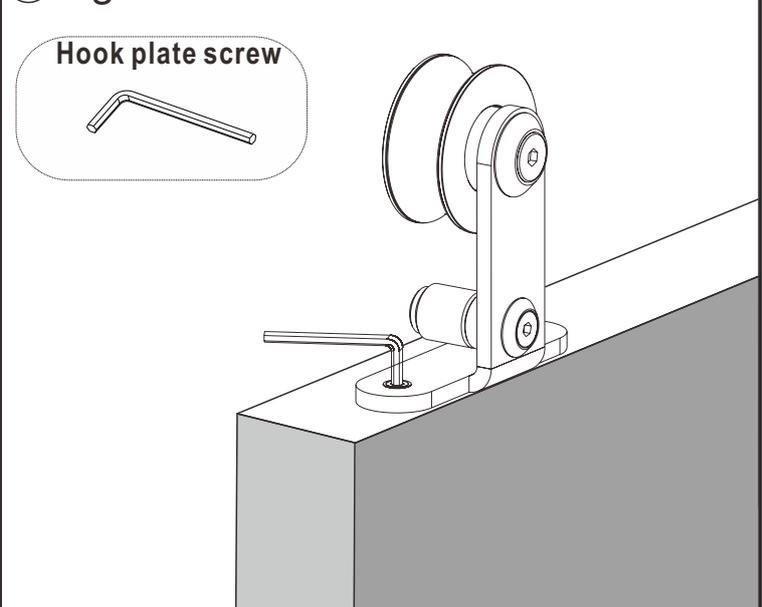

② Drilling a hole 50mm (2") deep with a 3mm (1/8") drill.

③ Install hook plate screws

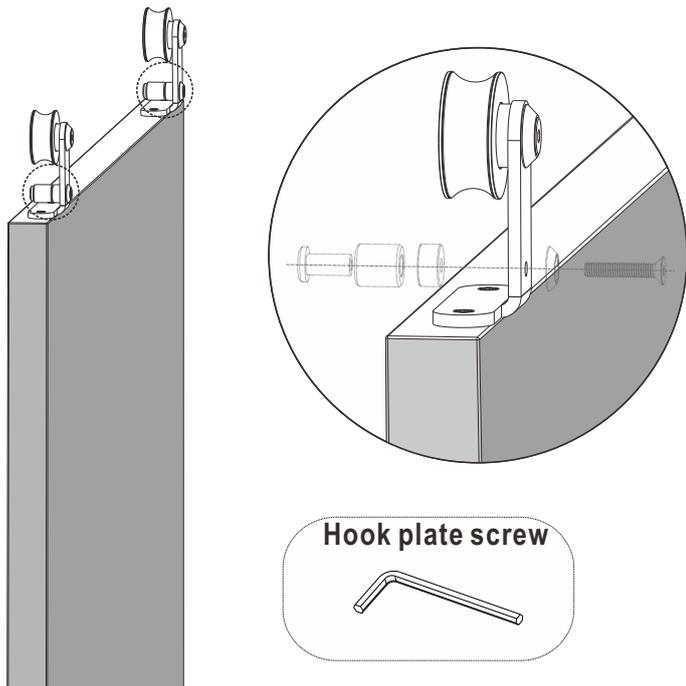

④ Tighten with an Allen wrench

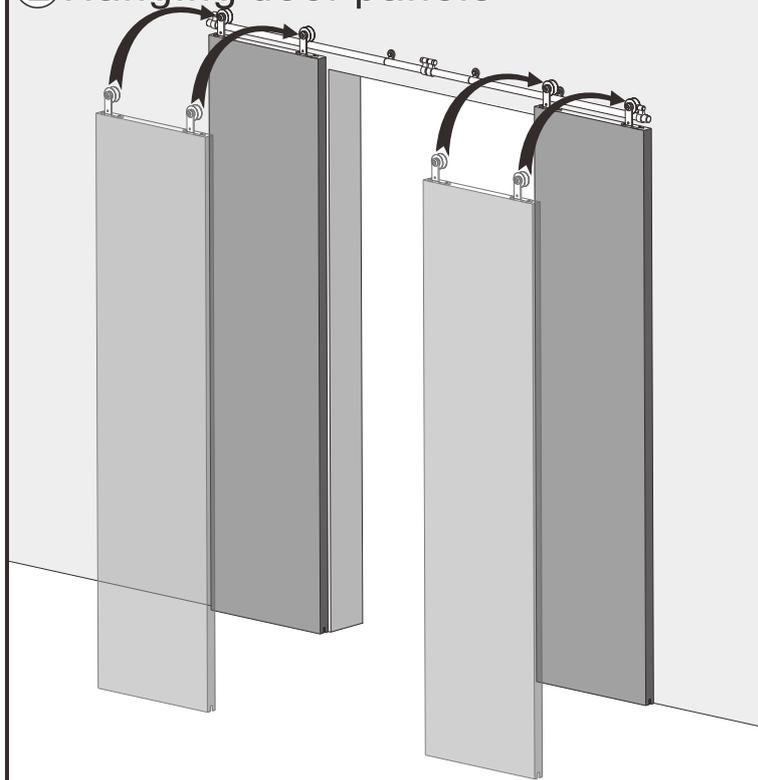

Step 4 Hanging the door panels

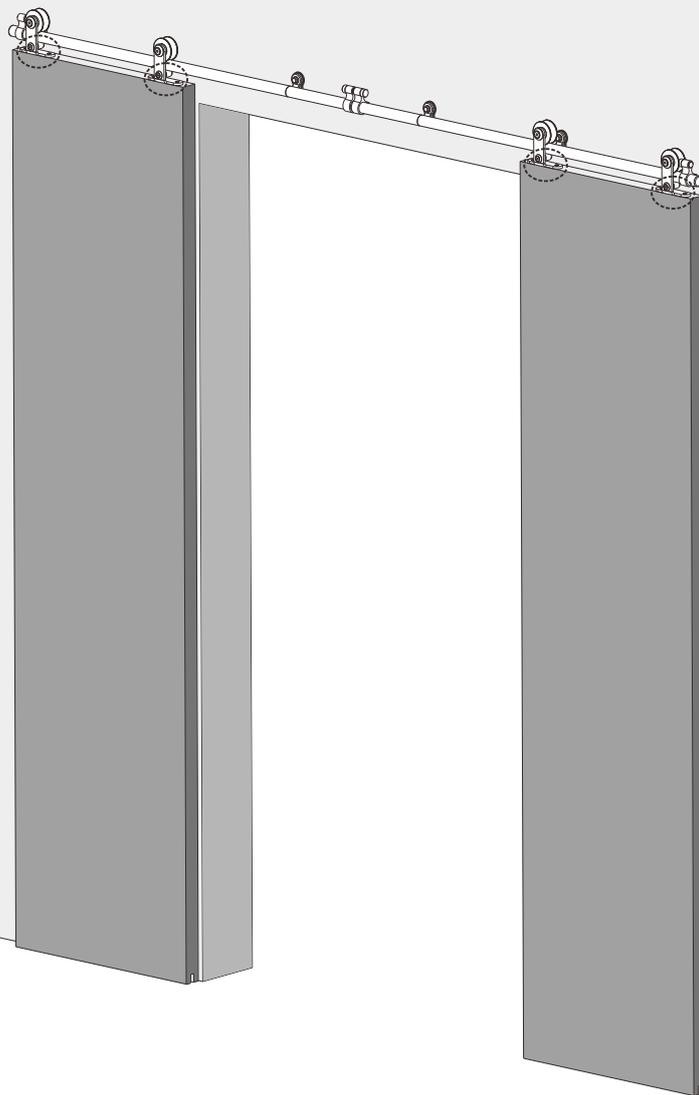

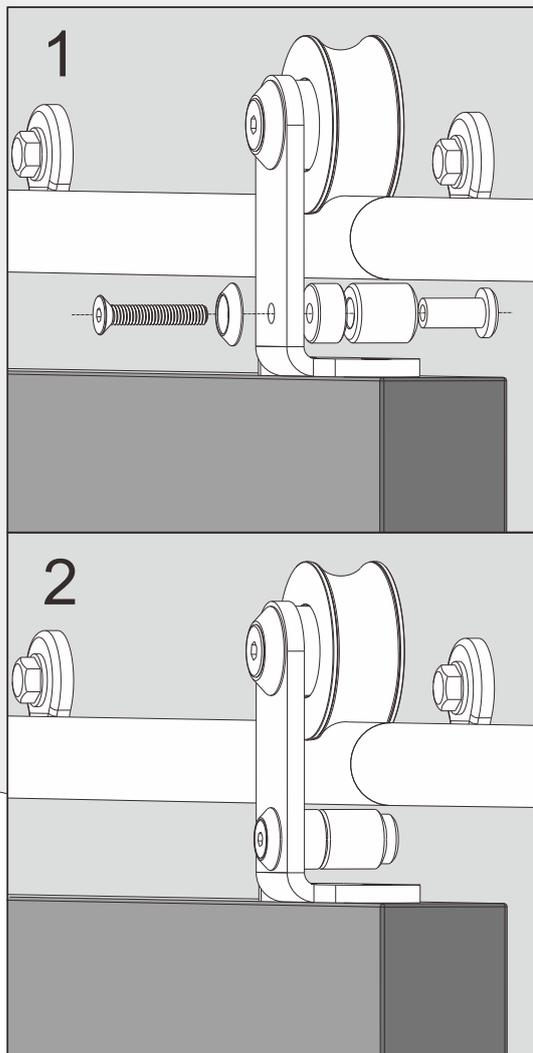

① Using the hex wrench, remove the anti-disengagement shaft from the roller.

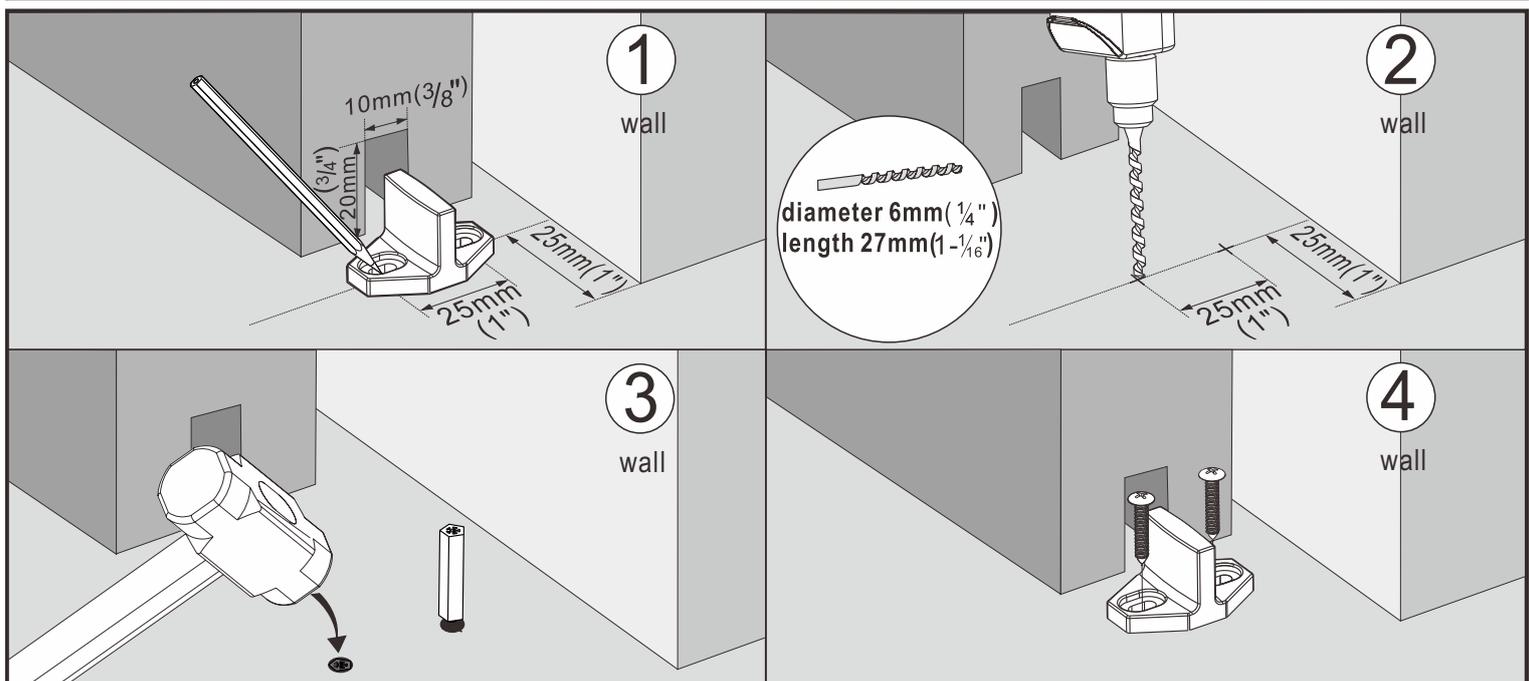

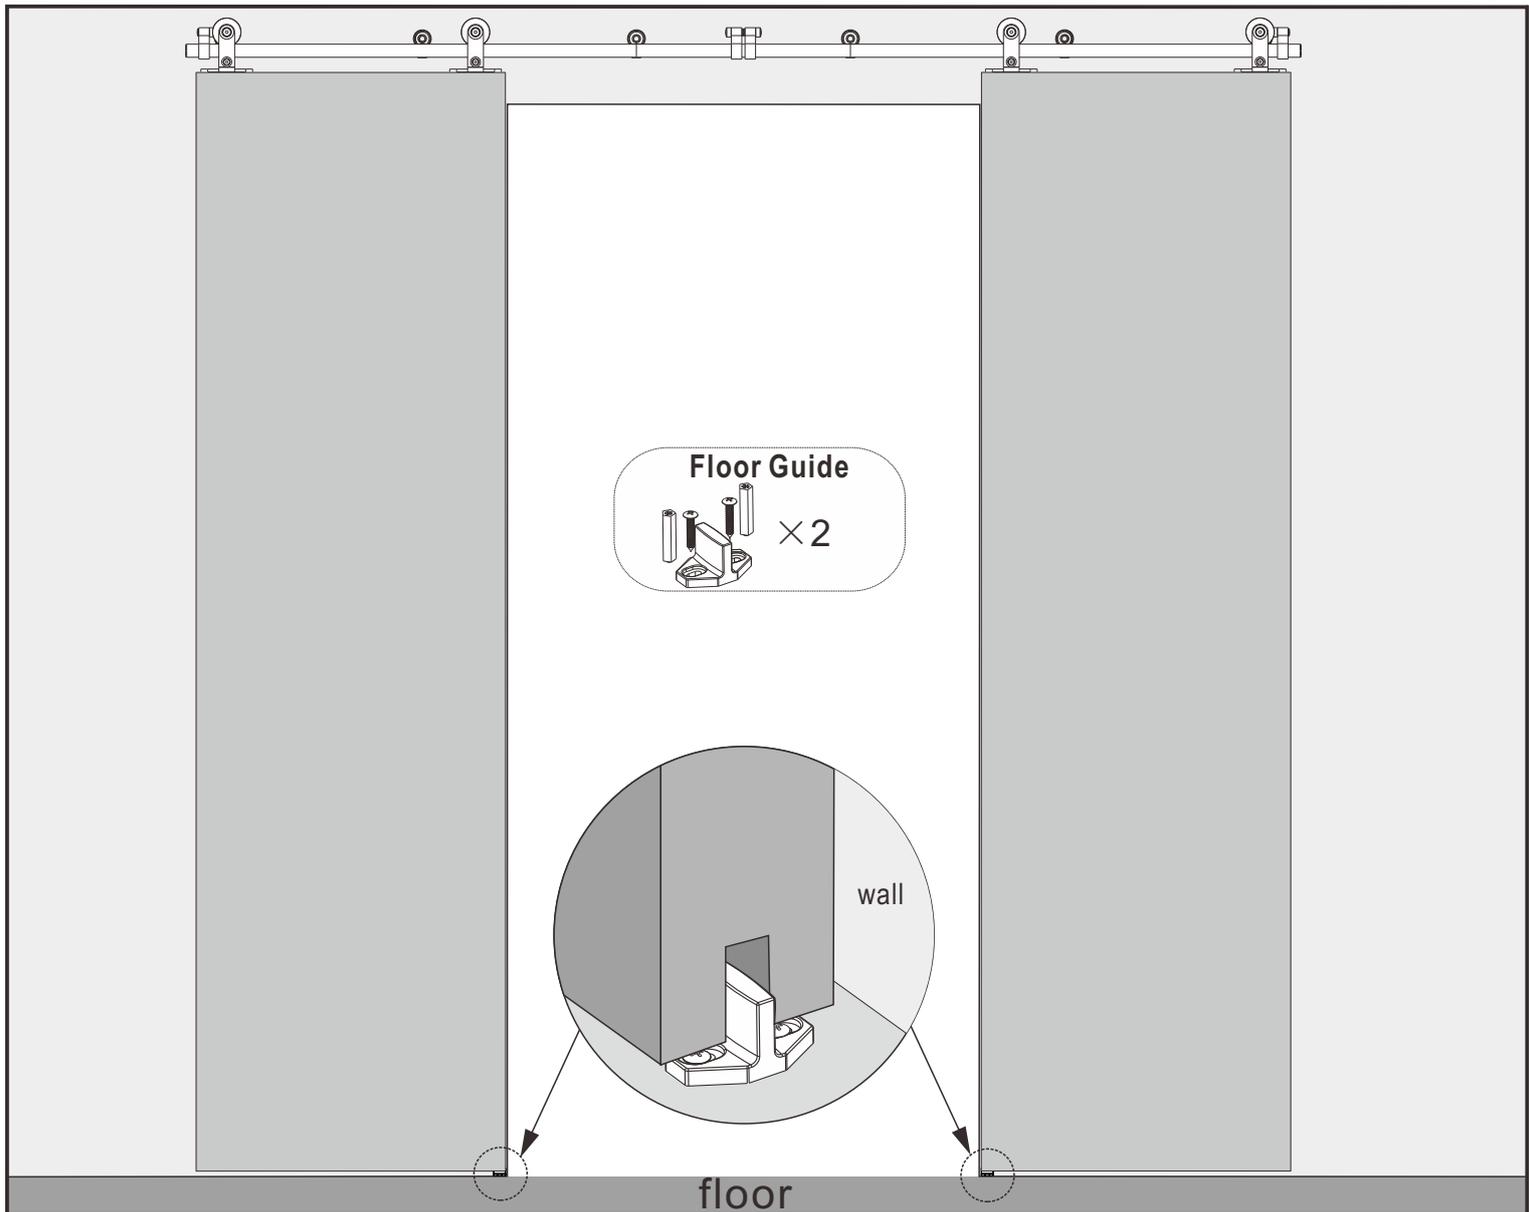

② Hanging door panels

③ Follow the steps to install **Anti slip wheel** .

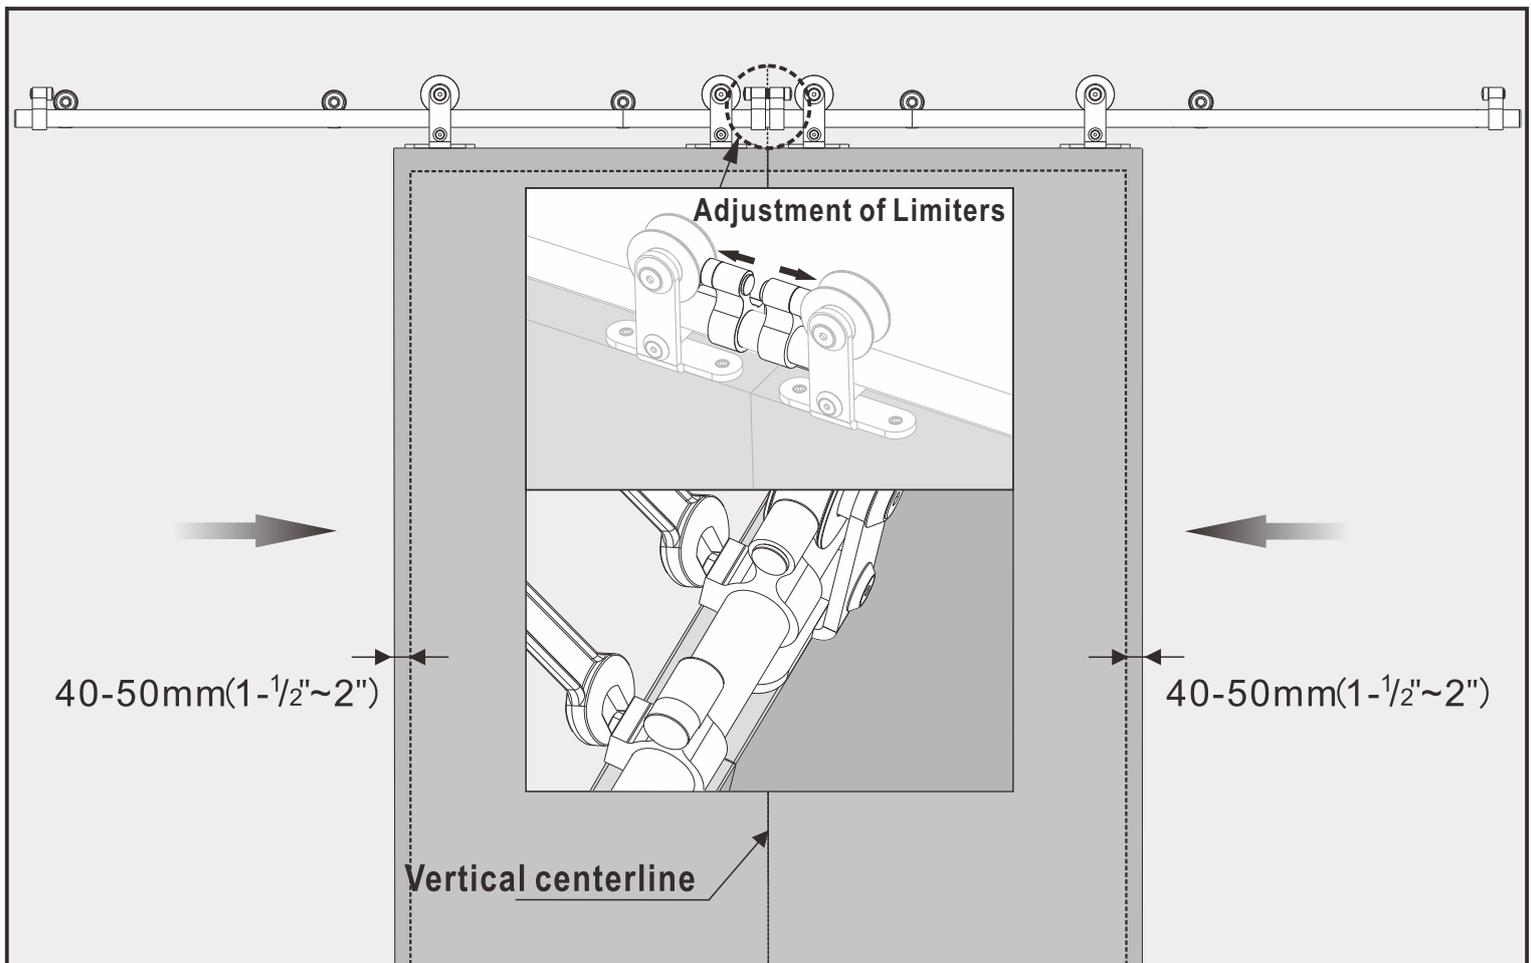

Step 5 Installation of the floor guide

Note: If your floor is made of wood and the depth is greater than 40mm (1-9/16"), please use a 3mm (1/8") drill bit to pre-drill a guide hole, and there is no need to install the expansion plug.

Step 6 Install stoppers

As shown in the figure, adjust to the appropriate position with a wrench to tighten the screws
